

# Skype App

An instant messaging app that provides online text message and video chat services. Skype's text, voice and video make it simple to share experiences with the people that matter to you, wherever they are. You can use Skype on whatever works best for you - on your phone or computer or a TV with Skype on it.

Follow the steps below:

## 01

Go to URL (<https://dev.botframework.com/bots/new>) and sign in.

## 02

Fill in the necessary details - Name, Bot handle, Description.

The screenshot shows the Microsoft Bot Framework interface for creating a new bot. At the top, there is a navigation bar with the Microsoft logo and links for 'Bot Framework PREVIEW', 'My bots', 'Documentation', and 'Blog'. The main heading is 'Tell us about your bot'. Below this is the 'Bot profile' section, which includes an 'Icon' placeholder with a blue circular icon and a link to 'Upload custom icon' (30K max, png only). There are three required input fields: 'Display name' (with a question mark icon), 'Bot handle' (with a question mark icon), and 'Long description' (with a question mark icon). Each field has a corresponding text input box.

## 03

In the configuration section -> Message endpoint will be Endpoint URL from Engati-Portal.

## 04

Click on "Create Microsoft App ID and password" button.

### Configuration

Register your bot with Microsoft to generate a new App ID and password

**Create Microsoft App ID and password**

\* Paste your app ID below to continue

Microsoft App ID from the Microsoft App registration portal

## 05

Click on "Generate an app password to continue" button, A password is generated. Note down this App Password as shown in the below screenshot for future reference.

The screenshot shows the Microsoft Application Registration Portal interface. At the top, there is a navigation bar with the Microsoft logo and links for 'Application Registration Portal', 'Tools', 'Docs', and 'Feedback'. The main heading is 'Generate App ID and password'. Below this, there are two input fields: 'App name' with the value 'Engati Demo' and 'App ID' with the value 'f6a70fdf-8c42-419a-a7ea-00f1ee151ee9'. A blue button labeled 'Generate an app password to continue' is positioned below the App ID field. At the bottom of the page, there is a footer with a globe icon, the word 'English', and links for 'Contact us' and 'Terms of service'.

### New password generated

Copy this password now, this is the only time when it will be displayed. Please store it securely and paste it into your bot configuration file.

xjuazMALB9137({}oylYN8{;

Ok

## 06

The App ID and Password are now generated and saved as shown in the below screenshot. Now, click on "Finish and go back to Bot Framework" button.

### Generate App ID and password

App name  
ENGATI\_DEMO

App ID
